## TimeZ!

### TimeZ!

‘Two contrasting viewpoints on time divide many prominent philosophers. One view is that time is part of the fundamental structure of the universe, a dimension in which events occur in sequence. Sir Isaac Newton subscribed to this realist view, & hence it is sometime referred to as Newtonian time. Time travel, in this view, becomes a possibility as other ‘times’ persist like frames of a film strip..

The opposing view is that time does not refer to any kind of ‘container’ that events & objects ‘move through’, nor to any entity that ‘flows’, but that it is instead part of a fundamental intellectual structure (together with space & number) within which humans sequence & compare events. This second view, in the tradition of Gottfried Leibniz & Immanuel Kant, hold that time is neither an event nor a thing, & thus is not itself measurable & cannot be travelled“. Wikipedia Definition

‘A man with a watch knows what time it is. A man with two watches is never sure.’ Lee Segall

Time Magazine was first published on March 3rd 1923, as a newsmagazine which summarized & organized the news so that ‘busy men’ could stay informed.

*‘And let their heir (God, if thy will be so); Enrich the time to come with smooth-graced peace, with smiling plenty, & fair prosperous days!.’*

*William Shakespeare*

‘Time is what clocks measure....’ Wikipedia

### Hour GlasseZ!

‘The flow of sand in an hour glass can be used to keep track of elapsed time. It also concretely represents the present as being between the past & the future.’ Wikipedia

Jan. 1st 1785 the Daily Universal Register publishes its first Issue!  
Jan. 1st 1788 changes its name to the Times

‘All time management begins with planning.’ Tom Greening.

## ViewZ!

*You are invited to send in your ViewZ!*

Well after a year and a half and one short sea trial "Sparky" is in the water on the way to her home, Buntzen. More pictures to come of the incredible electronic craftsmanship that my brother, Dave has put in to this, seemingly, simple looking craft. Yes it was a Hobby Cat in a past life, but now it's an custom, electric boat with an completely modified Merc. outboard ( Just casing left) that he fit a motor into. On-board Lithium Batteries with a battery control system that is state of the art, with all sorts of beeps and gauges.

Instead of saying "RPM" now I'm working with the concept of "Watts! " I'm sure folks are going to be thinking I've got it wrong. A few things to work on yet, regarding the height of the motor and the way the water runs past the mount itself. So on to the next chapter of water dynamics.

Thanks Mike L for the use of the trailer today it worked well.

Thanks Dave for your incredible Christmas Gift, and for your commitment & belief in sustainable energy.

## Time, time, time....

*Time, time, time, see what's become of me*

*While I looked around*

*For my possibilities*

*I was so hard to please,*

*But look around, leaves are brown*

*And the sky is a hazy shade of winter*

*Hear the Salvation Army band*

*Down by the riverside, it's bound to be a better ride*

*Than what you've got planned*

*Carry your cup in your hand*

*And look around, leaves are brown now*

*And the sky is a hazy shade of winter*

*Hang on to your hopes, my friend*

*That's an easy thing to say, but if your hope should  
pass away*

*It's simply pretend*

*That you can build hem again*

*Look around, the grass is high*

*The fields are ripe, it's the springtime of my life.*

*Ahh, seasons change with the scenery*

*Weaving time in a tapestry*

*Won't you stop & remember me*

*At any convenient time*

## January Zen!

Zen singular is a starting point

or

A momentary resting place when life gets in the way  
Of our passionate gardening

The first second of the first minute of the first hour of the first day of the new year ...

A single gust of arctic air sweeps across the just created Zen garden of 2012 ...

A single snowflake falls in a single degree of temperature ...  
And alights on the single leaf not yet taken by the wind  
upon the one un-harvested tree left of the once vast forest...

But that isn't the way our own personal new year begins  
We are lost in a forest of habits and issues that have so many leaves,  
we often feel swamped and inadequate within their rustling

We surround ourselves with the encumbered past,  
Recent and distant as we salute the old year with others  
Friends, both the real and the pretenders, Family, both loved and tolerated  
We promise ourselves a new rake for the Zen garden as the new day arrives

We convince ourselves to change our diet  
Exercise more control of ourselves and the rustling leaves  
Adopt a passion ... Change our ways  
Clean our garden and nurture its real potential

But on the second day and without a seconds thought  
We have wandered back into our weed infested Zen garden  
Picked up the old rake  
And convinced ourselves that it has served us well and can't be cast aside.

Each year it is the same .. For we are all insane  
We do the same things in the same way .. Yet expect different results.  
We can only break from the insanity of struggling through the torrent of leaves,  
Which form the vast forest that life grows around us.

## January Zen!

Continued..

If we seek one leaf at a time and press it into our new garden

A leaf of support for your partner

A leaf of listening to a good friend

A leaf of mentoring your child

For it is, that the Zen Garden of life is not about fighting the past life's winters

Or fixing our own negatives ... It is all about promoting our positives

It is about nurturing a single positive thought for a loved or cherished one

A spring that grows one new leaf at a time

By sharing the single tree

We grow our New Year Garden

By planting a positive seed in theirs

No one can fix any world issue or end starvation

But one positive seed planted

Is worthy of the New Year's garden
