Subject: Re: RE: Editorial in Anmore Times - December edition

This was an item of discussion at the Finance Committee meeting held just before the holidays. You may want to have a look at the min. of that meeting. We discussed the clause you are referring to in your letter. I have yet to hear of a non-profit being supported by performance bonds or personal guarantees.

I do not have all of the answers for the daycare, I would argue that no one does. We do have a diverse group of Villagers that have come forward to form a committee and offer their advice and experience. Perhaps you should have offered to join the daycare committee thereby guiding the process and limiting the perceived potential risk to Villagers, the Village can always use helpful volunteers.

We also have a very good model already in our Village (it has always been exceptionally financially sound) and I am hoping that with some effort and creativity we will have another successful non-profit center to serve our community.

Thanks for your input, Kerri
