

In Councilor Piamonte open letter to council I take exception two comments made within;

4th paragraph

“a large majority seemed to oppose the rezoning for a Daycare, so much that all of Council voted to reject the rezoning”

This is not entirely true as what occurred at that meeting was a specific Public Hearing about rezoning lands and was not to include the specifics of a Daycare. The debate that ensued inevitably undermined the rezoning process and therefore had to be overturned due to engagement between Council and the Public after public comments had concluded.

5th paragraph

“with the recent demise of the Anmore Renewable Energy Foundation and the prompt resignation of the three Anmore Council trustees”

This again is not factual, I at no point did I ever attended an operating meeting in regards to this Foundation nor did I vote or sign any documents regarding this Foundation. We as a Council met to discuss the future of the Foundation in an in camera meeting where it was unanimously approved that the foundation should be dissolved.
