Is this what democracy has come to. Our democratically elected officials show they have the right to make decisions that effect our elections and refuse to comment on the decisions when questioned by the constituents that elected them. How is this council able to address our concerns as constituents if they will not answer our questions. These actions reflect a dictatorship not a democracy. As a anmore resident I am appalled by our elected officials behaviour in there representation of our village to the constituants and to our nabouring communities

A very disappointed,
Mark Obedzinski
