

CALL OUT

WANTED SNOW PLOW OPERATOR

With the extreme winter conditions this season, the Village is calling on residents that may be interested in assisting our Public Works Department on an on-call basis for snow plowing services throughout the winter months.

If you are an Anmore resident interested in this opportunity, you will be required to possess a valid Class 5 Drivers License (with clean drivers abstract) and would be paid an hourly rate as an employee of the Village. Snow plow truck and training would be provided, although experience is preferred. The Village is also open to receiving applications which include an operator and equipment. Appropriate insurance coverage required and contractor rates would apply.

Our Public Works Department offers snow plowing and salting services when snow starts to accumulate and are scheduled to work overnight, as required.

To be considered for this position, please contact:
